## Hundred Thousand Japanese Want To Come

### STACKABLE TELLS ABOUT EMIGRANTS

Are Strong, Healthy And Clean Agricultural Laborers

### FOUND SUVERIC TO BE A SPLENDID SEABOAT

BEST OF ACCOMMODATIONS AND CARE WERE PROVIDED FOR ALL OF HER PASSENGERS

The Board of Immigration has received letters from Collector E. R. Stackable by the Sierra's mail yesterday, wherein a full description is given of the steamship Suveric and her emigrant passengers. Stackable is apparently exceedingly well satisfied both with the steamer and the class of people whom he secured. It appears that excellent accommodations and care have been provided for them during the voyage, so that the hardship of rounding Cape Horn has been reduced to a minimum. Stackable writes about as follows on the subject:

"I consider the lot of emigrants on board the Suveric to be in excellent condition. They are strong, healthy, clean agricultural laborers, the major portion of them with families. The steamer has on board a competent physician and two trained nurses. The Suveric is a brand new steamer, this being her maiden trip. She is 485 feet long and has a 55-foot beam. She carries a cargo of 9000 tons of cement for San Francisco and also about 2000 tons of general merchandise. In my trip on the vessel from Ponte Delgado, Azores, to Funchal, Madeira, I found her to be an excellent vessel, in fact she was a better boat at sea than the Manchuria or the Mongolia of the Pacific Mail service. Every person who has inspected the vessel has stated to me that she is the best equipped emigrant vessel they had ever been on board of. All the passengers are housed below the main deck, and have the entire shelter deck, covered with canvas, for recreation space during pleasant weather. Other letters deal with matters relative to the charter of the steamship and other such business details, which are of no general interest."

### FAMILY QUARREL WILL NOT OCCUR

Governor Gives Reasons For Disapproval of Longer Leave

That there is no prospect of a family row when Jack Atkinson returns, as was stated this morning in a newspaper, is the opinion given today by Governor Carter. He said:

"There is nothing in this story of a row between myself and Jack. The matter was one which is entirely open. On November 5 I sent him a cable addressed to the Lotus Club, New York, saying: 'Leave expires Thursday. What are you going to do?' On the same date I wired the President: 'Have no definite information as promised from Atkinson, whose two months' leave expires on 8th, therefore disapprove extension.' The facts are that when Atkinson left here he went on a personal trip and did not expect to return. He did not inform me of his movements and not knowing that he was coming back here, I wired to the President that I did not approve of giving him a longer leave. Shortly after I received a letter from him, which I think must have crossed my message, saying that he had refused the position offered him and that he would return on the Korea."

"If he has any fault to find it surely is on his side, as I was not kept informed of his plans or movements. If I had known that he was coming back here to take up his official position again I would have been very glad to see him stay in Washington on territorial business, but in the meantime, believing as I did that he was not coming back, I had to have matters settled here."

"I had no intention whatever of going behind Jack's back and do not believe that I did so."

### SUGAR

SAN FRANCISCO, Cal., Nov. 22.—SUGAR: 88 analysis Beets, 8a 93-4d.

### \$400,000 FIRE

San Francisco, Cal., Nov. 22.—A fire in the asphalt works of Whittier, Coburn & Barber caused a loss of \$400,000.

### ENGLAND STOPS CHINESE

London, Eng., Nov. 22.—Thirty-two Chinese, refused landing here, have appealed to the courts.

### SELL THEIR DAUGHTERS

St. Petersburg, Russia, Nov. 22.—The famine at Kazan has become so severe that the peasants are selling their daughters into slavery.

### BUFFANDEAU DID NOT OPEN SAFE

Denies Having Anything To Do With County Ballots

### COLOR IS PROVIDED FOR BY THE STATUTE

DEMOCRATS HAD OFFICIAL ORDER OF NAMES ON BALLOTS PRINTED BY THE 'TISER

Eugene Buffandeau, the assistant to the County Clerk, who, according to the Advertiser, might have tampered with the ballots in the County Clerk's safe, returned today from Honolulu, where he has spent a short vacation.

"I have a key to the safe," said Buffandeau, who was quite naturally rather incensed at the insinuations which had been made about him. "But I seldom used it. I have not opened the safe, at any time, day or night, during the past three months. Kalaokalani is always on hand first or all in the morning, and is also the last to leave the office at night. He is the one who has opened the safe during the past three months. As far as the ballots are concerned I have had nothing whatever to do with them. Kalaokalani got them up and received them and placed them in the safe himself."

The Advertiser's discovery that an official ballot must have been in the hands of the Republican workers, from which they derived the color and order of the candidates, is truly a remarkable one.

"I am surprised that the Advertiser should be surprised that we got the color of our sample ballots right," said Chairman Harry Murray of the County Committee today. "There was no great skill required to find that out, as the law expressly sets forth which colors shall be used for the various ballots. I can tell you that no one from the County Clerk's office gave us the slightest assistance."

"In this connection it may be interesting to know that the Democratic sample ballots, which were printed by the Advertiser several days before the election, did have the same order of names as the official ballots, and the latter accordingly had to be changed."

"As a matter of fact it makes no difference whatever if the sample ballots have the same color and arrangement as the official ones, as the headings on them are entirely different, and it would be entirely impossible to perpetrate any fraud with them. If a voter should cast one of these sample ballots it would be sure to be thrown out."

### EMBASSADORS SPEAK

New York, N. Y., Nov. 22.—The German and the British Ambassadors were speakers at a banquet of the Chamber of Commerce last evening.

The latch key often does many a man a good turn.

### MANY JAPANESE WILL COME HERE

Thousands Waiting To Obtain Passage To Hawaii

One hundred thousand immigrants are awaiting an opportunity to sail for Hawaii and other parts of the United States, according to Y. Idzumi, of the S. S. Shihata Maru.

The Shihata arrived at Honolulu some time ago with 201 Japanese immigrants, and it is probable that she will return to Yokohama for another load. Y. Idzumi, agent of the owners Sale & Fraser, Ltd., of Yokohama and Kobe, states that before she left she had over 400 passengers booked, but when the rival companies learned that she had entered what they regarded as their field, they cut rates to less than half, and succeeded in taking away about half of the passengers booked for the Shihata Maru.

It is only lack of transportation facilities, he says, that keeps the number of immigrants from Japan from being much greater. The temporary laying up of the Manchuria and Mongolia is keeping many of them back. They are pouring out of the interior of Japan by thousands, all anxious to come to Hawaii and the Coast States of America. So great is the number of those who wish to leave their native country for America that the government is compelled to keep part of them back on account of lack of transportation facilities. The police telegraph to the interior the number who can be accommodated with passage, and this number is permitted to come to the coast towns, ready to embark for American ports.

It is the matter of expense that keeps the immigration from being much larger than it is, says Mr. Idzumi. The passage is only about \$30 dollars, but there are so many other expenses incidental to leaving Japan that many who would like to come find themselves unable to do so. But in spite of this there are many thousands of Japanese waiting for an opportunity to secure passage.

The Shihata is lying here now awaiting orders. It is uncertain whether she is to go on to the Sound and take on a cargo of wheat or lumber for Japan, or return to the latter country immediately upon leaving Honolulu and get another lot of immigrants for Hawaii. Cable orders are expected at any time. The probabilities are, however, that she will go to the Coast before going back to Japan.

Although this is the first time Mr. Idzumi has been out of Japan, he speaks English with much fluency. He says that Japan has the most friendly feeling for the United States, and scoffs at the idea that there is any possibility of trouble between the two nations.

Japan, he thinks, is bound to control both China and Korea, and these nations, which have been sleeping for hundreds of years, will be awakened by the little country which has made such rapid strides in the past 50 years.

### CANOE RACES ON THANKSGIVING DAY

The Kamehameha Aquatic Club, which is formed to encourage native water sports, is preparing for a carnival of canoe races, which will take place in Kalia bay at 10 a. m., Thanksgiving Day.

The most important race of the day will be one for paddling canoes, in which Dr. Wall's new kua canoe, which took second to the Kona crew on Regatta Day, will try conclusions with A. M. Brown's Alabama, and Prince Cupid's crack boat. This race will be in heats for the best two out of three. Other canoes will also be entered. A silver and kua cup will be the prize in this event.

Land Commissioner Pratt states that he expects to visit Kapaa within the next month and look into the land values there, with the object of opening it up for settlement. He has been consulting with Manager Jack Fairchild of the Maikai Sugar Company recently.

### DOCTOR UCHIDA IS FORCED TO RESIGN

Charged With Harboring Alleged Leper In Hospital

### PATIENT IS COLLARED BUT SKIPS TO JAPAN

EXCITING MEETING OF HOSPITAL DIRECTORS CALLS FOR RESIGNATION OF DOCTOR UCHIDA

The treatment of an alleged leper by Dr. Uchida, the superintendent of the Japanese Charity Hospital, has led to a three-cornered conflict between Dr. Uchida, the directors of the hospital and the Board of Health. The row ended with the forced resignation of the doctor, but in the smoke of battle the patient managed to make a sneak to Japan.

The following appear to be the facts of the case: In the month of July a Japanese laborer from Oahu, Hawaii, came here to receive treatment from Dr. Uchida. He was placed in the Japanese Charity Hospital, where he remained for about six weeks. He was registered in the hospital record as being afflicted with a certain skin disease, not leprosy. Subsequently the patient was discovered by President Pinkham of the Board of Health, and in consequence of the examination made by the Board of Health, he was sent to the Kalia Receiving Station.

A few days afterward he was visited and interviewed by a very prominent member of the local Japanese community, and subsequently he discreetly left the Territory on one of the Japanese steamers, and went to Japan.

Dr. Uchida claims that as a result of his bacteriological examination of the patient that the indications are that Kataoka was not a subject of leprosy but that he should even be held as a suspect.

A meeting of the Board of Directors of the Japanese Charity Hospital was held at the Japanese school house on Nuuanu street last Saturday night, at which there were about twenty-six members present. G. Motokawa presided over the meeting and after the usual routine matters had been disposed with S. Anno introduced a resolution to the effect that Dr. Uchida should be removed from his position as superintendent of the Japanese Charity Hospital on the ground that he had failed to report to the Board of Health that one Kataoka, who was being given treatment by him, was a leper or a suspect of leprosy, as the law makes it incumbent on physicians to do.

The resolution did not carry as there were more members who opposed the form of resolution, as presented, than the introducer of the resolution could rally about his standard.

A. K. Ozawa, after the downfall of the first resolution, offered a new resolution, in which Dr. Uchida was asked to tender his resignation as superintendent of the hospital within forty-eight hours, failing to do which he would be summarily removed from his office. The resolution received the unanimous support of all but Editor Shiozawa and one other. Dr. Uchida resigned before the given time was up.

### 2-CENT FARE ACT INVALID

Washington, D. C., Nov. 22.—The Supreme Court of Virginia has declared the 2-cent passenger fare act unconstitutional.

If you will put your valuables in our safe you will be as free from jewelry care as if you had them in the Bank of England.

(Associated Press Special Cable) SALT LAKE CITY, Utah, Nov. 23.—President Joseph Smith of the Mormon Church entered a plea of guilty to a charge of unlawful cohabitation. He was fined \$300.

### Says He Is Not Guilty

(Associated Press Special Cable) NEW YORK, N. Y., Nov. 23.—Mayor Schmitz of San Francisco landed here today. He was not arrested. Schmitz asserts his innocence of the charges made against him.

### SINGER FINED

NEW YORK, N. Y., Nov. 23.—Caruso, the famous tenor singer, was today convicted of having been offensive in his conduct towards women in Central Park. He was fined \$10.

### NO FEAR OF TIDES

Surveyor Wall, who has charge of the tide gauge for the Government, states that there is no fear of "seismic disturbances" from the high tides which are alleged to prevail by an afternoon paper. He states that the tides are no higher than has been predicted for this season of the year and that there is no explanation needed for the front page of an afternoon paper in the attempt to frighten the more ignorant class of people living on the waterfront.

The tides at this season of the year always are from six inches to a foot higher than earlier in the year and only the ignorant or those who delight in perpetrating fakes and canards on the public, can believe otherwise.
